

# Homemade Bisquick

## Homemade Bisquick

- 5 cups all purpose flour (you can use up to half whole wheat flour)
- 1/4 cup baking powder
- 2 Tbsp. sugar
- 1 tsp. salt
- 1 cup butter

1. Mix dry ingredients together then cut in butter until crumbly. (I like to use a pastry blender to do this.)
2. Store in refrigerator and use cup for cup as you would Bisquick.
